

Todd Bradley – U15AA Head Coach

I have been coaching within North Bay for the last 23 years and coaching in the North Bay Minor Hockey Association for the last 18 years. I have coached at the U9, U11, U13, U15 and U18 and last season at the U14AA level. I have also coached at the High School Level with the Chippewa Raiders and Major Junior A level with the North Bay Skyhawks.

As a player, I have played at the AAA level from U8-U16, OHL with the Oshawa Generals, Major Junior A, with the Thornhill Islanders Jr A and OUAA with the University of Western Ontario Mustangs. I have a considerable amount of hockey experience in both playing the game and as coach at various levels. I am hard working, well-prepared and dedicated to developing players to the best of my ability. My job as a high school teacher provides me with the ability to understand teenagers and helps me to explain things to them in a positive way.

My goal as a coach is to develop players to be a better hockey player but also to be a better person on and off the ice. I believe that by improving in small areas of the game and through hard work, winning will take care of itself and not need to be focused on. If players take care of the small things, big things such as winning will take care of itself.

Players who want to play for the U15AA team must be hard working, coachable and dedicated to the team.
